

NEW PACER TROLLIES

Need a new trolley?

I custom make beach trollies to suit the Pacer Dinghy. I've improved the original design by making the handle weight 30% lighter meaning kids can launch the Pacer without having to rely on an adult. I use 3.2mm thick (standard is 2mm) Australian made steel, meaning these trolley's will last a very long time! These are high quality trailers without the high price tag.

I also build trollies to suit other dinghies.

Call or email for pricing or to discuss your requirements

**Australian made
with 3.2mm
Australian Steel**

**Improved weight
distribution**

**Puncture proof
wheels**

**Self-draining, long
lasting design**

**Fully galvanized
AFTER
manufacture**
